Yellowstone and the Gravelly Range

5 days/4 nights

DAY 1

The Beaverhead Deerlodge National Forest is a remote area just northwest of Yellowstone National Park. After meeting in Bozeman, we will shuttle 2-1/2 hours south to Ennis, Montana, home of millions of trout, and a few people. Ennis is located near the beautiful Gravelly Range in the Beaverhead Deerlodge National Forest. After a quick pit stop, we will continue up into the mountains to the Gravelly Range Road where we will unload and begin our ride for the day. Our route takes us through beautiful alpine meadows full of wildflowers. The views from up here are world class. A few strenuous climbs and fun descents will bring us to our camp for the evening at Clover Meadows.

TOTAL MILEAGE: 10 - 15 miles

DAY 2

After breakfast at Clover Meadows we will continue south, and today becomes a big climbing day. Three climbs (shuttle options are always available)! Along our route we will pass through several more stunning meadows full of wildflowers and an occasional lingering snowfield. In this area, the wildlife is abundant and we have an excellent chance of spotting deer, elk, moose, yellow-bellied marmots and several species of birds of prey. Crossing our highpoint at Monument Ridge affords us distant views of the rugged Taylor-Hilgard peaks in the Lee Metcalf Wilderness. After lunch we roll along towards Black Butte and camp near Black Butte Cabin.

TOTAL MILEAGE: 12 miles, optional hike

DAY 3

This morning dawns with a one mile climb and then a long descent. For the last two days we have been traversing across the ridge and today we get to descend all the way to the Madison River. Today's ride is big fun as we lose almost 3,000 feet over approximately 20 miles. We will ride through huge stands of Lodgepole Pine, expansive meadows, through Wolverine Basin, and finally to the West Fork of the Madison River. Our riverside camp for the evening gives us the opportunity for a quick dip or perhaps a chance to fish in the famous waters of the Madison (if you brought your pole and fishing license).

TOTAL MILEAGE: 20 miles

DAY 4

After riding through the Gravelly Range, we will load up the bikes, jump in the van and shuttle over to Yellowstone National Park. We start our ride on one of the few dirt paths that allow bikes in Yellowstone and enjoy incredible views of intense color and beauty. As we make our way toward the Old Faithful Geyser, we will ride a combination of paved park roads and dirt bike paths. Yellowstone National Park is a treasure and inspires awe in everyone who travels through it. Between the geysers, the abundant wildlife, and the powerful waterfalls, we are constantly impressed by its natural wonders. Our afternoon route takes us right to Old Faithful. The world's best known geyser predictably erupts every 90 minutes, so we can tour the area and the historic Old Faithful Inn and visitors center while waiting for this must see attrac-

tion. Our last night's camp will be inside the park at Grant Village on the West Thumb of Yellowstone Lake, North America's largest mountain lake.

TOTAL MILEAGE: 15 miles

DAY 5

After breakfast we will drive from Grant Village through Hayden Valley along the famous Yellowstone River. In this open parkland you may see moose, bison and possibly even grizzly bears, all from the safety of the Western Spirit van. Waterfowl, including white pelicans and trumpeter swans, are abundant in the marshy areas. Our stop at the Mud Volcano will show us the varied thermal features here, including the Dragon's Mouth Spring. And yes, we are quite sure there is a real dragon in there. Our tour of the park will conclude at the Grand Canyon of the Yellowstone where the river plunges 1,000 feet. We will hike the South Rim Trail along the river which affords us incredible views of the spectacular upper and lower falls. Hot water acting on volcanic rock created the canyon's yellow colors and our view from Artist's Point is truly one to remember. After lunch we will shuttle back to Bozeman.

TOTAL MILEAGE: AM van/walking tour; 2-3 mile hike

It is critical that you include your name, "Western Spirit Cycling" and tour date on the outside of the box. If you choose this service, you must get this organized through our office. It is imperative to have your bike finely tuned and cleaned before your tour so you know it is in top running condition

Packing for your trip

Be sure to bring everything on this list. We have carefully developed this list to ensure your comfort on the tour regardless of the weather. If you are prepared for extreme weather, it is an adventure. If you are not prepared it can be a serious problem.

We recommend the layering system, including a wicking or long underwear layer, an insulating layer and a weather barrier for wind and rain. This list reflects that philosophy. Weather can be unpredictable so be sure to bring all the warm clothing and rain gear listed!

HOW TO PACK: The bulk of your gear and clothing will ride in the Western Spirit support vehicle (preferably in a large duffle bag) and will **not** be accessible during the day.

For this trip, you will need a riding pack and optional

day bag:

- Your riding pack may be a hydration pack, but needs to carry 2-3 liters of water, rain gear, other warm clothing, and food for the day. You may be away from camp and the support vehicle all day and need to be self-sufficient.
- A small day bag is optional and may be used to store things you'd rather not ride with, but would like to have access to during the day. This day-pack will remain with the support vehicle and may not be accessible, depending on the day.

WHAT WE PROVIDE:

- ✓ meals, snacks, water, electrolyte drinks, non-alcoholic drinks
- ✓ camp mugs, all kitchen and dining ware
- ✓ 2 large cycling water bottles
- ✓ camp chairs
